Happy Graduation to the Class of 2025!

Congratulations on your incredible achievements! As you conclude your primary education, I am overwhelmed with pride. Looking through photos from past events at IDPMPS, it's beautifully clear how much you've grown, shone, and contributed to our school in such meaningful ways.

Your joyful engagement in academic and extracurricular pursuits has not only deepened your knowledge, but also shaped you into thoughtful, creative young leaders—ready to step into the future with courage.

Your journey at IDPMPS truly touched our hearts. From the proud laughter that once echoed through the hall, the covered playground, the classrooms, and every venue beyond our campus, to the hard-earned victories and heartfelt recognition in languages, sports, music, art, and science—Your presence has left a lasting and influential mark on our community.

I take great pride in witnessing so many IDPMPS alumni flourish in inspiring careers and embrace unique passions—nurtured by the solid foundation of their rich learning experiences. Today's graduates walk proudly in their footsteps, having actively participated in a range of leadership programmes, including roles as student council committee members and health ambassadors. These opportunities cultivate leadership, compassion, and a profound sense of community. Through such experiences, students grow into responsible advocates, thoughtful communicators, and champions of well-being, both within and beyond the school. I am confident that you, too, will continue to shine with the warmth, imagination, curiosity, and positivity that define the spirit of the IDPMPS experience.

**Your next chapter awaits—
and I wholeheartedly believe in
the continued brilliance of your youthful spirit!**

Dear 6A,

As we gather here today to celebrate your graduation, I am filled with pride and nostalgia. Over the past three years, I have witnessed your remarkable growth, not only academically but also personally. When we first began this journey together, it was common to see disagreements among you. However, I have watched as you learned to resolve conflicts, support one another, and create a harmonious classroom environment. This transformation has been truly inspiring.

As you prepare to enter secondary school, I encourage you to embrace this new chapter with open hearts and minds. Change can be daunting, but remember that every challenge is an opportunity for growth. As the poet Robert Frost once said, "In three words I can sum up everything I've learned about life: it goes on."

You will encounter new experiences and at times, you may feel overwhelmed. Do not let difficulties deter you from your path. Believe in yourselves and your abilities. I have seen the potential within each of you and I am confident that you will rise to meet any challenge that comes your way.

As you step into this next phase of your lives, carry the lessons and friendships formed here with you. Remember, you are not alone; we are all cheering for your success. Keep striving, stay resilient, and never forget that you have the power to achieve great things.

Congratulations, graduates! I wish you all the best in your future endeavors.

Warm regards,
Ms Suen

Dear Beloved Class 6B,

As we gather to celebrate this significant milestone—your graduation—I am filled with immense pride and a touch of bittersweet emotion. Time truly flies; it feels like only yesterday when I first met you as your Primary 1 teacher, guiding your tiny hands as you learned to write your names. And now, here we are, at the culmination of your primary school journey, with me fortunate enough to stand by your side once again as your Primary 6 class teacher. What a perfect full circle this has been! Watching you grow has been one of the greatest joys of my life. I remember those early days—teaching you the alphabet with our classroom ABC train, helping you fasten your belts, and even carrying your school bags when they seemed too heavy for your small shoulders. Today, you not only write with confidence but also extend kindness, offering to carry my heavy books with a cheerful, “Miss Mak, let me help you!” How far you’ve come!

Our journey together has been filled with unforgettable moments. From the excitement of our study tour to Shenzhen—where your curiosity shone as you asked about everything, from using the shower to finding your towels—to the energy and spirit you brought to Sports Day and the Cheer Competition. Who could forget your incredible performance, dancing to “We Can Run! We Can Jump! We Are Number 1!” Some of you even braved breakdancing—not perfect, but full of heart—and lit up the hall with your enthusiasm!

This year, you’ve also embraced leadership with grace. Guiding our Primary 1 buddies during the Friction Game project, you took on roles as presenters, scriptwriters, and mentors, patiently helping them measure, record, and even stepping up as MCs. I’ll never forget the moment one of you sang “Let It Go” to recapture their attention—proof of your creativity and maturity.

Even during my study leave, your warmth stayed with me. Returning to your open arms and hearing “We missed you! When are you coming back?” reminded me just how special our bond is.

To the parents of 6B—thank you. Your trust, support, and partnership have been invaluable.

Whenever I reached out, you responded without hesitation, and for that, I am deeply grateful.

As you step into the next chapter, remember: growth is a lifelong journey. Carry the same courage, curiosity, and kindness you’ve shown here into everything you do. Though you may move on to new schools and new adventures, know that I will always be cheering for you.

Come back to visit whenever you can—my door will always be open, and my heart will always hold a special place for each of you.

With all my love and pride,
Miss Mak

Dear 6A graduates,

Congratulations on reaching one of the significant stages in your educational journey!

I can still remember the lessons we had in these three years. From the learning activities of chopsticks challenge in P4 to the friction game in P6, I could witness your growth in knowledge and skills. I was deeply impressed with your thirst for science knowledge and curiosity in exploring science. Each of you has unique talents. Some are good at expressing and sharing views while some are good at observing and creating. All of you are rooted in my memory album.

I cherish the memories you've created, and never forget your laughing smiles. I am proud of all your improvements and achievements in the six-year primary education. Open your hearts and minds to embrace the challenges ahead, and don't forget to support one another along the way. Wishing you all the best in your next steps!

親愛的6A班學生， 呂老師

Dear Class 6B,

I am Miss Ng, your Chinese teacher in P1, your G.S. teacher in P3, and your Chinese teacher again in P4, 5, and 6. Even I can hardly believe it myself—turns out I have taught you for five out of your six years of primary school! You've truly grown and blossomed.

Thank you for all the memories over the past five years. Thank you for singing happy birthday to me. Thank you for telling me that one day, you'll continue learning Chinese well, get into university, and earn your mortarboard. I know I've been strict with you, but that's because I want you to have the ability to chase your dreams, the courage to ride the winds and waves, and a kind and upright heart.

Dear 6B, congratulations on your graduation! You're finally moving on to secondary school! Let's recall one of the vocabulary words we learned in P5 — "self-discipline." These two words will accompany you through all the difficulties and challenges in life. I hope you'll continue to meet great teachers and friends on your journey. And may there come a day when you'll share with me your successes and joys.

Strict—but full of love for you all, Miss Ng

My happiest moment was when I ran in 100m race in P6. We went to the TKO sports playground. In the qualified round, I came first. Raffy was most likely to be second but Hassan fouled him. When Adyan saw that I came first, He was shocked. In the final round his goal was to beat me. Finally I got the 3rd place.

6A Hameed Shaaf

I would like to thank my friends for staying by my side and supporting me. Especially Aifa. We have been friends since we were in P1. We had the most precious memories together. Rabia, thanks for always making me laugh and starting conversation with me. Although sometimes i argued with my friends, they never left me. I appreciated that so much.

6A Hiba

I remebered in P4 school picnic, I climbed a tree all by myself. It was my first time to do so, i was excited and nervous at the same time. I think it is a humorous experience. Although it is a bit dangerous, I am glad i become brave and step out of comfort zone.

Tashfa, we didn't talk a lot at first, but then we found out we had so much in common and we had so much fun time together.

Aunum and I had a fight in p5 but we made up after we realised how chikdish we were. Now, we became closer. we had lots of fun in M1 period.

I remebered a few days before Eid, Fatima drew henna in the rescesss time. Aifa got some henna on her scarf. So, some of the P6 girls and I helped her washed it away. I will miss these days when we were together

6A Fatima

My unforgettable memory in IDPMPS was the football match we did with our sisier school. I was so nervous at first, I was benched, but then I came on the field and played really well. I made a slide tackle and cleared the ball to my teammate, Adyan, and he scored. My team scored a goal but it did not count. But then a guy showed the referee the goal should have counted because he had it on video. The referee then declared it a goal! The final score was 3-3, so it was a tie. I was really happy we didn't lose!

6B Anus

One of my most memorable times in P6 is the Shenzhen Sister school education trip. I met the students from the sister schol. Most of them were friendly.
